

Annex 5: themes and sub-themes from our qualitative synthesis

| Current practices in involving communities in research | | | |
|--|--|---|--|
| Main theme | Sub-theme | Studies | |
| Awareness creation and sensitization on the research | Use of drama | Mwinga & Moodley (2015) Tindana <i>et al.</i> (2017) Simwinga <i>et al.</i> (2018) Asante <i>et al.</i> (2013) | |
| | Use social media | Simwinga <i>et al.</i> (2018) Meiring <i>et al.</i> (2019) Tindana <i>et al.</i> (2017) | |
| | Use of documentaries and digital storytelling | Asante <i>et al.</i> (2013) Tindana <i>et al.</i> (2017) | |
| | Use of open community forum (Submission and discussion of study proposal and other concerns) | Simwinga <i>et al.</i> (2016) Petersen <i>et al.</i> (2012) Musesengwa & Chimbari (2017) Mukaratirwa (2017) | |
| | Use of community durbars | Paulina <i>et al.</i> (2011) Asante <i>et al.</i> (2013) | |
| | Use of mobile vans with key messages | Meiring <i>et al.</i> (2019) | |
| | Use of leaflets | Asante <i>et al.</i> (2013) | |
| | Co-creation | Community capacity building | Petersen <i>et al.</i> (2012) Musesengwa & Chimbari (2017) Nyirenda <i>et al.</i> (2020) Brear <i>et al.</i> (2020) |
| | | Community input into the protocol and study instruments development | Mwinga & Moodley (2015) |
| | | Use of Community Advisory mechanism and community liaison officer (CLO) (Formation community advisory boards (CABs) | Musesengwa <i>et al.</i> (2017) Musesengwa <i>et al.</i> (2018) |
| Forming community coalitions and partnerships | | Musesengwa <i>et al.</i> (2017) | |
| Barriers to effective engagement of communities in research | | | |
| Main theme | Sub-theme | Studies | |

| | | |
|--|---|---|
| Prohibitive cultural, historical and religious context | Restrictions on visiting homes of newborn | Hamer <i>et al.</i> (2015) |
| | Religious ideologies | Ndekha <i>et al.</i> (2003) |
| | Mistrust regarding the research (Due to historical colonial exploitation) and having suspicions towards research institutions (university or other “outside” involvement) | Newman <i>et al.</i> (2015) Kagee <i>et al.</i> (2020) Ndekha <i>et al.</i> (2003) NMalayirenda <i>et al.</i> (2018) Mosavel <i>et al.</i> (2005) |
| Geographical/Spatial limitation | Dispersed nature of communities | Hamer <i>et al.</i> (2015) |
| | Poor road networks | Kagee <i>et al.</i> (2020) Asante <i>et al.</i> (2013) |
| | Distance challenge due to size of the area of coverage | Ndekha <i>et al.</i> (2003) |
| Ineffective stakeholder engagement | Obtaining consent from study individuals without seeking consent from leadership of the community | Nyika <i>et al.</i> (2010) |
| | Failure to do proper community entry by researchers | Mlambo <i>et al.</i> (2019) Musesengwa <i>et al.</i> (2017) |
| Difficulty in planning and executing community engagement activities | Engagement process taking longer than planned due to the step-wise procedure | Nyika <i>et al.</i> (2010) |
| | Lack of / limited formative research | Simwinga <i>et al.</i> (2018) |
| | Time constraints / wasting time in obtaining permission from community, political, and administrative officials | Brear <i>et al.</i> (2020) Musesengwa <i>et al.</i> (2018) Simwinga <i>et al.</i> (2018) |
| Unmet community expectations | Raising expectations of the community to levels beyond what the proposed research may be able to address | Nyika <i>et al.</i> (2010) |
| | Monetary expectations (Lack of monetary incentives) | Nyirenda <i>et al.</i> (2018) Ndekha <i>et al.</i> (2003) Nyika <i>et al.</i> (2010) Simwinga <i>et al.</i> (2018) |
| | Unmet expectations from previous research experience | Asante <i>et al.</i> (2013) |
| Communication barriers | Language barrier in communicating important scientific concepts to community | Newman <i>et al.</i> (2015) Kagee <i>et al.</i> (2020) Surakat <i>et al.</i> (2017) |
| | Misinformation | Kagee <i>et al.</i> (2020) |
| | Language and literacy barrier in obtaining informed consent | Mtove <i>et al.</i> (2018) |
| | Misconceptions that inhibit effective communication | Newman <i>et al.</i> (2015) |

| | | |
|---|---|--|
| | Limited understanding of health research and lexicon challenges | Nyirenda <i>et al.</i> (2018) Newman <i>et al.</i> (2015) |
| | Low literacy levels of community members to fully comprehend the nature or concepts of the research | Newman <i>et al.</i> (2015) Mwinga <i>et al.</i> (2015) Musesengwa (2017) |
| | Inadequate feedback to the community by the research team | Mwinga <i>et al.</i> (2015) |
| Inadequate representativeness of community stakeholders | Difficulty in achieving a balanced selection of ethnic diverse community stakeholders | Newman <i>et al.</i> (2015) |
| | Lack of a designated focal persons for the CAB | Mwinga <i>et al.</i> (2015) |
| | Limited financial resources (Huge commitment of financial resources) | Mwinga & Moodley (2015) Mlambo <i>et al.</i> (2019) Musesengwa <i>et al.</i> (2018) Surakat <i>et al.</i> (2017) Brear <i>et al.</i> (2020) |
| Multiple research projects at the same time | Competing research projects | Musesengwa <i>et al.</i> (2018) Musesengwa <i>et al.</i> (2017) |
| | Conflicting agenda | Musesengwa <i>et al.</i> (2018) |
| Negative experience from previous studies | Failure of previous research to achieve intended objectives | Essack <i>et al.</i> (2012) |
| | Personal questions that communities are not comfortable with from previous research experience | Essack <i>et al.</i> (2012) |
| | Disappointment from not being included in previous studies | Essack <i>et al.</i> (2012) |
| Facilitators of effective community engagement in research | | |
| Main theme | Sub-theme | Studies |
| Effective community entry and engagement of stakeholders at beginning of the research | Engaging first, traditional and then religious leaders | Tindana <i>et al.</i> (2017) Hamer <i>et al.</i> (2015) Newman <i>et al.</i> (2015) Mtove <i>et al.</i> (2018) Mosavel <i>et al.</i> (2005) Mwinga <i>et al.</i> (2015) Musesengwa <i>et al.</i> (2018) Paulina <i>et al.</i> (2011) Simwinga <i>et al.</i> (2016) |
| | Engagement of community-level political leaders | Tindana <i>et al.</i> (2017) Hamer <i>et al.</i> (2015) |
| | Engagement of communities during protocol formulation stages | Newman <i>et al.</i> (2015) |
| | Engagement of civil society organizations | Simwinga <i>et al.</i> (2016) |

| | | |
|---|--|--|
| | Social mapping | Hamer <i>et al.</i> (2015) Paulina <i>et al.</i> (2011) |
| | Paying close attention to clear channels of authority in the local communities | Paulina <i>et al.</i> (2011) |
| Effective community engagement strategies | Two-way communication with communities to discuss issues that may be of concern to them | Nyika <i>et al.</i> (2010) |
| | Openly acknowledging the role that the entire community plays in the research | Simwinga <i>et al.</i> (2018) |
| | Utilisation of strong communication skills (Use of social marketing Strategies) | Kagee <i>et al.</i> (2020) Mosavel <i>et al.</i> (2005) |
| | Good cultural knowledge by researchers | Mosavel <i>et al.</i> (2005) |
| | Effective use of existing social structures and networks in the communities | Mlambo <i>et al.</i> (2019) |
| | Adding fun to all activities and use of participatory methods | Simwinga <i>et al.</i> (2018) |
| | Use of new technologies and computers in engagement | Simwinga <i>et al.</i> (2018) |
| | Holding of regular feedback meetings with stakeholders | Musesengwa <i>et al.</i> (2017) Musesengwa <i>et al.</i> (2018) Mwinga <i>et al.</i> (2015) Simwinga <i>et al.</i> (2018) |
| | Carrying out targeted sensitisation campaigns to ensure that community members understand the research objectives and deliverables | Musesengwa <i>et al.</i> (2017) Ndekha <i>et al.</i> (2003) |
| | Active involvement of community in decision making | Petersen <i>et al.</i> (2012) Musesengwa <i>et al.</i> (2018) Wariri <i>et al.</i> (2017) Paulina <i>et al.</i> (2011) |
| | Creation of community fora such as “participative spaces” and/or “participatory workshops | Musesengwa <i>et al.</i> (2017) |
| Community empowerment | Training and recruitment of local staff for the research (as research assistants) | Ndekha <i>et al.</i> (2003) |
| | Formation of community advisory boards (CAB) | Simwinga <i>et al.</i> (2018) Kagee <i>et al.</i> (2020) Mosavel <i>et al.</i> (2005) Mwinga <i>et al.</i> (2015) Musesengwa <i>et al.</i> (2017) Mlambo <i>et al.</i> (2019) |

| | | |
|---|--|--|
| | Involvement of marginalized groups | Wariri <i>et al.</i> (2017) |
| | A strong collaboration with the local information service department | Asante <i>et al.</i> (2013) |
| Community motivation | Financial incentives | Simwinga <i>et al.</i> (2018) |
| | Training and motivation of community leaders | Ndekha <i>et al.</i> (2003) |
| | Non-financial incentives | Simwinga <i>et al.</i> (2018) |
| Ethical considerations needed in engaging communities in research | | |
| Main theme | Sub-theme | Studies |
| Cultural considerations | Gaining understanding of community perspectives, beliefs, cultural values, and practices. | Tindana <i>et al.</i> (2017) |
| | Adopting culturally appropriate ways to communicate research information to communities (Respect for local concerns and norms) | Nyika <i>et al.</i> (2010) Kamuya <i>et al.</i> (2017) Mosavel <i>et al.</i> (2005) |
| | Research involving difficult and complex topics need to be evaluated for their effectiveness within the cultural context. | Tindana <i>et al.</i> (2017) |
| Community autonomy | Autonomy of communities in decision making needs to be enhanced | Mtove <i>et al.</i> (2018) |
| | Community Advisory Boards (CAB) should be able to carry out their functions independently of the research team in order to protect the community from any unethical research practices | NMalayirenda <i>et al.</i> (2018) |
| | Avoidance of structural coercion | Nyirenda <i>et al.</i> (2020) |
| | Avoidance of the use of coercive methods in referral or recruitment of participants | Simon & Mosavel (2010) |
| | A need for research involving young people to be evaluated for their effectiveness | Tindana <i>et al.</i> (2017) |
| Review of research protocols | Effective review of research protocols (including questionnaire, informed consent forms) before the engagement | Mtove <i>et al.</i> (2018) Mwinga & Moodley (2015) |
| Informed consent | A need to obtain community informed consent before engagement | Mosavel <i>et al.</i> (2005) Mlambo <i>et al.</i> (2019) Musesengwa <i>et al.</i> (2017) |

| | | |
|--|---|---|
| | Ensuring appropriate consenting processes in populations with low literacy or limited exposure and experience with research | Kamuya <i>et al.</i> (2017) |
| Avoidance of community exploitation | Exploitation of locally recruited researchers through unfair employment practices needs to be stopped | Simon & Mosavel (2010) |
| | Ensuring the avoidance of power imbalance and dynamics between researchers and community | Simwinga <i>et al.</i> (2018) Nyirenda <i>et al.</i> (2020) Nyirenda <i>et al.</i> (2018) Kagee <i>et al.</i> (2020) |
| Ensuring fidelity | Respect for initial research plans | Kagee <i>et al.</i> (2020) |
| | Avoid carrying out activities that are outside of the initial protocol | Mlambo <i>et al.</i> (2019) |
| Risks and Benefits | Providing adequate information on research goals, risks, and benefits (Study benefits and compensations need to be made clear to community) | Mlambo <i>et al.</i> (2019) Kamuya <i>et al.</i> (2017) |
| | Avoiding research-related harm (actually ensuring safety of communities when conducting study activities) | Simwinga <i>et al.</i> (2018) Paulina <i>et al.</i> (2011) Meiring <i>et al.</i> (2019) |
| Privacy and confidentiality | Ensuring privacy of community and study participants | Mlambo <i>et al.</i> (2019) |
| | Ensuring confidentiality of community and study participants | Mlambo <i>et al.</i> (2019) |
| Current trends on how gender is taken into account when engaging communities in research | | |
| Main theme | Sub-theme | Studies |
| Gender and consent | Household consent decision making | Kamuya <i>et al.</i> (2017) Mtove <i>et al.</i> (2018) |
| Gender of field workers | Influence of gender of the field worker on engagement | Kamuya <i>et al.</i> (2017) |
| Gender equality | Presence of both gender at stakeholders meeting | Paulina <i>et al.</i> (2011) |
| | Avoidance of cultural tensions regarding researchers working closely with women (sensitive questions) | Paulina <i>et al.</i> (2011) |
| | Avoidance of gender-biased research agenda (over concentration of research on women [too much concentration | Asante <i>et al.</i> (2003) |

| | | |
|--|--|--|
| | on women at the expense of the health of the men]) | |
|--|--|--|
